PROFESSIONAL SUMMARY

I connect business needs, software and data to take ERP initiatives and integrations from discovery to production.

C# · .NET Framework · WPF · SQL Server · REST/SOAP · IIS

EXPERIENCE

Real2b - IT Project Manager · .NET Development & Integrations

01/2025 - Present · Retail ERP

- Requirements discovery and clarification, planning, prioritization and stakeholder communication.
- Third-party integrations through REST and SOAP, flow validation and incident management.
- Development and support using C#, .NET Framework, SQL Server, Entity Framework, WPF/DevExpress and IIS.

Real2b - Full-Stack .NET Developer

08/2024 - 01/2025 · Retail ERP

- Designed and implemented WPF interfaces with DevExpress.
- Built data access with Entity Framework and SQL Server.
- Maintained APIs and resolved production defects.

PedidosYa - Catalog Governance Senior Analyst

06/2022 - 08/2024 · Delivery and e-commerce

- Python automations to reduce manual work and validate operational rules.
- Extraction and analysis with BigQuery; reporting in Looker Studio and spreadsheets.
- Cross-functional coordination through Jira, Trello, Slack and Google tools.
